We received a large entry from the Prep Class at Guardian Angels School in Qld, which had entered an astonishing 22 entries. The students were learning about plants in their curriculum so this competition was perfect. These children were only five years old and had never sewn before and thoroughly enjoyed the experience. Their level of work made it incredibly tough for our judges to pick a single winner as they were all so great. In the end, the judges decided that the whole class

should win for their dedication and effort. A special award called The Judges Encouragement Award was awarded to this class and they have won 2 x Brother NS10 sewing machines for their school. Congratulations!
