

what is colour?

Finished size: 163cm x 142cm (64in x 56in)

Michele Hill of Happy Valley, South Australia, says, "My quilt, *What is Colour?*, was inspired by a pattern in a Dover publication, *2286 Traditional Stencil Designs* by H. Roessing, originally published in 1918 and 1920. Timeless patterns like this one are used frequently. I have even found the image on a small glass plate in a gift shop! I never photocopy images, I prefer to hand-draw a copy. This way, I feel I'm more likely to create my own interpretation of the images, sometimes simplifying patterns for the purpose of appliqué." Michele's quilt was sewn on a Pfaff Quilt Expression 4.0.
